5. **CLERK REPORT.** The quarterly risk assessment has been completed in respect of the outside gym and play areas and classified in all areas as low or very low risk. It will be necessary, as in the past, to continue to monitor via quarterly inspections and take action if any risk level increases. It will be appropriate to consider the age of any piece of equipment should future work be necessary as some items may be approaching the end of their working life from a cost perspective.

Coles Hill Bin emptying continues to be unpredictable and understandably causing frustration for residents. I have provided a full report to District Cllr Wakeling together with a suggested solution which he agrees with. The problem appears to be with contractors and inconsistency with their views on access to Coles Hill and we need them to co operate until a cut back of hedging is possible in September.

6. None.
7. Cllr. Dunning had provided a report pre meeting and a copy is available from the Clerk.
8. A District Councillor report had been provided prior to the evening and is available from the Clerk. A full outline of ongoing problems with bin collection was provided to Cllr. Wakeling who will continue to attempt commitment to action from SDC and report back.
